DIRECTIONS FOR USE:

RESTRAINTS

- NOT TO BE USED on surfaces which come into direct contact with foodstuffs.
- NOT TO BE USED on roofs for collection of potable water.
- NOT TO BE USED on surfaces which come into contact with the ground.
- NOT TO BE USED on surfaces exposed to rain unless Cellavit® water repellent or other suitable protective finish is used to seal the **PROTECTIMBER PROFESSIONAL** into the timber.

APPLICATION TABLE

PROTECTIMBER PROFESSIONAL can be applied by brush, roller, dipping or spraying.

PREVENTATIVE TREATMENT	10 mL of ProtecTimber Professional per 1000 cubic cm
REMEDIAL/ INSECTICIDE	20 mL of ProtecTimber Professional per 1000 cubic cm

SITUATION	RECOMMENDED RATE PER SQUARE METRE		
	0-25 mm depth	25-50 mm depth	50-100 mm depth
PREVENTION : Timber, masonry, brickwork, concrete	250 mL	500 mL	1 litre
REMEDIAL/INSECTICIDAL: Timber, masonry, brickwork, concrete	500 mL	1 litre	2 litres

NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

PROTECTIMBER PROFESSIONAL is effective in controlling surface mould, algae and fungi. It will also, at the insecticide rate, help control common wood borers and termites. **PROTECTIMBER PROFESSIONAL** is supplied ready to use for in-situ, remedial, preventative treatment as per application table.

If the surface to be treated is very dry, the penetration of **PROTECTIMBER PROFESSIONAL** will be enhanced if the surface is sprayed with water prior to treatment. This is always necessary when using the remedial/insecticidal rate for the treatment of aged timbers with very dry surfaces. **PROTECTIMBER PROFESSIONAL** can be applied immediately after the water has been absorbed by the surface.

When using high rates (remedial/insecticidal), it may be necessary to apply via two coatings with two to three hours interval.

PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND ENVIRONMENT

Do not contaminate streams, rivers, or waterways with the chemical or used container.

STORAGE & DISPOSAL

Store in original container in a dry, cool, well-ventilated area. Do not store for long periods in direct sunlight. **DO NOT** use the container for any other purpose. Triple or preferably pressure rinse containers before disposal. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point.

If not recycling, break, crush or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS

Will damage eyes. Will irritate the nose and throat and skin. Repeated exposure may cause allergic disorders. Avoid contact with eyes and skin. Do not inhale spray mist. When opening the container, preparing product and using prepared product wear cotton overalls buttoned to the neck and wrist and a washable hat, elbow-length PVC gloves and goggles. If product on skin, immediately wash area with soap and water. If product in eyes, wash it out immediately with water. Wash hands after use. After each day's use, wash gloves, goggles and contaminated clothing.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone 13 1126.

Material Safety Data Sheet

Additional information is listed on the Material Safety Data Sheet.
